

## EXPANDING VOLUNTEERISM IN OUR COMMUNITY

Since The Hub opened in May of 2018, the Volunteer Center of Washington County has seen remarkable success in expanding our mission of empowering people for social good. Thanks to your support, we've been able to realize **double-digit increases in volunteerism** in our community, have **raised tens of thousands of dollars** for partner nonprofits and we have become a **model for the future of volunteerism** and nonprofits across the nation.

*"The Hub has enabled the Albrecht Free Clinic to promote our mission through its agency spotlight week. This exposure to new volunteers and donors, as well as the tip jar collection, has enabled us to deepen our reach within the community."*

**Ruth Henkle**  
Executive Director  
Albrecht Free Clinic

*"What the Volunteer Center has done so far with its earned income venture, The Hub, has exceeded all expectations, and has truly brought together the community, uniting us in a desire to do good for our neighbors and be the change we wish to see in our world."*

**Noelle Braun**  
Executive Director  
Casa Guadalupe Education Center

*"The Hub has become and will continue to be a safe and well desired place to frequently learn, hold professional meetings, advocate, and simply enjoy interacting with our community. We find acceptance, connections, and future prospects within those walls and the resources available there. Again, we attribute many success stories to the Volunteer Center's connections and dedicated staff."*

**Christa Markworth**  
Community and Job Coach  
The Threshold Inc.
